

Transcript of my Introduction Video

Visual Description: Greer is standing up in front of a light gray wall with her hair in a low ponytail. She is wearing clear glasses. She is dressed in black slacks, a black shirt and a black blazer with gold buttons.

Hello my name is Greer Davidson. My sign name is happy with a 'G'. I started to learn ASL my junior year of high school. I really enjoyed learning about the culture and meeting different people. I really just enjoyed being at social events and deaf events with people in high school and I thought I really enjoyed the language. Maybe interpreting would be my future, but I did not know that that was going to be my future. So, in high school the teachers all asked us a series of questions, 'when you think about your future and your job, what college you're going to go to?', 'what are you going to major in?', 'what do you want to do with the rest of your life?', the typical questions your teachers ask you. I didn't know but I thought maybe I would do interpreting because I liked ASL so much. So, I was looking for colleges and I saw that Columbus State Community College had their very own interpreting program. I thought that it was cool so I applied for school there. Columbus State accepted me but I didn't start the program right away though. First, I had to do my Gen Ed classes like English, Math, Science, all those typical pre-requisite classes. Once I finished all my pre-requisite classes, I started the interpreting program. First I applied and was accepted. I was so excited to meet new people and I was happy to do something that I liked. I have now finished all my interpreting classes so now I just have practicum left. I am really excited to start interpreting and meeting new people. Thank you for watching my video and I hope to see you soon! Thank you so much! Bye!
